Augsburg Gazette states, from Vienna, the that General de Collin had been compelled to the town of Cracow, as the number of troops the town of Cracow, as the number of troops are compensatively as too small to resist the rebets. exacuste the town of Cracow, as the number of troops under his command was too small to resist the rebels, and as he was afraid that they would gain the passage of the Vistula, near Podgorize, and thus extend the revolution to the interior. He was able to reach and secure this point without an attack from the rebels. A Frank fort journal states, from Wienna, that several officers have been arrested in Gallicia, on suspicion of their being concered with the revolutionary movement.

A letter from Dresdeu, of Feb. 24th, says: "In consequence of the revolutionary movement in Polan, all the Russian Poles resident abroad have received or dera from their Government to return, under pain of confiscation of their property. Many who were residing in Saxony have siready left. M. de Schroeder, Chargé de Affaires of Russia, who had gene to Weimar, has been recalled, as his presence here, in the present state of affairs, is considered necessary.

Markets.

Paris Stock Exchange, March 3—Half-past four—All kinds of securities were heavy to-day, and prices have in general declined. For cash, fives have fallen.

He then passed on to a discussion of the important half in these lands. He first exploded the preload in these lands. He first exploded this class of property on a par with mort only placed this class of property on a par with mort only placed this class of property on a par with mort only placed this class of property on a par with mort only placed this class of property on a par with mort only placed this class of property on a par with mort only placed this class of property on a par with mort only placed this class of property on a par with mort only placed this class of property on a par with mort only placed this class of property on a par with mort only placed this class of property on a par with mort only placed this class of proper

All kinds of securities were heavy to-day, and prices have in general declined. For cash, fives have fallen 20c; threes 30c; Roman are unchanged; Haytl. Portuguese, and Neapolitan, not quoted. For the end of the month, fives have fallen 30c; threes 15c. Railway shares were a good desi oldered, and nearly all the lines have fallen. Sewredly any thing was done in promises, and Lyons Definitives remain at the same prices as yesterday. For account, Nantes have fallen 11fr. 25c; Avignon 10gr. Orlane, St. Germeins, and Rouen, Tr. 50c each; Bordeans, St. Germeins, and Rouen, Tr. 50c each; Rorthern 21fr. 50c; Strasburg are unchanged; many the stream of the constitutionality of this proposed Legislation oddescents and devises. You have already published this bill, and made such comments upon it as promed

Ann.

Mr. Y. went on to speak of the next proposition of the tenants, viz: to abolish Distress for Rent. It had been said, that the abolition of this Landlord's Remedy would distress rather than benefit the tenants. He cared not to inquire whether this was so or not. The remedy was not one in consonance with the feelings of the people of a free country. He examined the origin of this remedy—from England where Landlords legislate for Landlords. He dis-sected and exploded this relic of monarchical institutions-tearing it and the arguments of its advocates into shreds. He then proceeded in a brilliant and closely reasoned argument, to prove that the aboli-tion of this aristocratic remedy was no interference with, nor violation of contracts, even where that to the Albany Basin was introduced. The bill to incorporate the Niagara Falls Ferry Association was reported favorably. Mr. Lotr presented a bill, accompanied with a written report, on the subject of the legal notices proper to be retained for publication. The bill providing for the payment of with nesses in criminal indictments tried in Counties other than that in which the offence is committed (such as the Polly Bodine trial) was passed. The bill in relation to the Oneida River improvement of placing it under the charge of the Canal Commison this point. His argument was unanswerable, and his reference to the now exploded objections to the wise, salutary and humane non-imprisonment law—to the predictions made on its passage, and the contract of the contract of the predictions of the contract of the predictions made on the passage, and the contract of the predictions made on the passage, and the contract of the cont their entire unsoundness, was most happy and op-In the House, a memorial was presented by Mr.

Blodgerr, on behalf of the Tonawanda Indians, of that law. He showed how the objections to this

when it shall be published.

Mr. Y. then spoke of the remaining request of the tenants—viz: for permission to contest the titles of the Landlords of these Manors. He differed from many with great reluctance, but he could not see uon, and the call was sustained and the main question put, and there were eighty one votes in the affirmative. The absentees were called three times over. Messrs. Coe, Udall, King and Low voted are on the first and second calls of the absence. over. Messrs. Coe, Udall, King and Low voted aye on the first and second calls of the absorptees—Messrs. Tilden and Seartz on the third—Mr. Wells protested against the votes of the two last members, on the ground that they were not within the bar when their names were called, and demanded the announcement of the vote as it stood on the second call. lieve that such an investigation would be productive of any benefit to the tenants for I believe the courts would decide (whether right or wrong is

reading of bills was continued, and several passed, among them the bills to incorporate the New-York and Connecticut Railroad Co.; relative to Flashing avenue in Brooklyn; for the relief of the N. York. U. States. Jefferson, Firemen's, Fire, and several other Insurance Companies. Recess.

In the evening, the bill prescribing the number of Delegates to the Convention was the subject of debate by Messrs. Worden, Titus, Hazelton, Bailer, Collins and Smith. No question was taken. Mr. Bailer of decay of the Convention was the subject of debate by Messrs. Worden, Titus, Hazelton, Bailer, Collins and Smith. No question was taken. Mr. Bailer of decay of the colling and the project of the Convention of the Anti-Rent Question. Mr. Y. proceeded to dissect the leaders of Loco-Socoism upon the floor of the Assembly, and he proved himself a most skilfull operator. I never listened to a more triumphant effort. The leaders fell one after another in rapid succession.—But poor Tilden was most effectually used up of any unlucky wight I ever saw. His protege, "Pious Ben" Buller in whose defence Tilden had made a labored eulogy, went with him. I never saw a cloak so completely stripped from a hypocrie as it was from Buller on this occasion. You saw "stated preaching," "brother Jesse," "the Young Patroon," "legal tender among the Detch," and "tons of specie" standing out in bold relief and perfect outline. I wish the Pharisee could have been present to hear this eulogy upon his plous efforts. Any skin loss thick than that of a rhinoceros would have felt these lashes. Whether they will make any impression upon the celebrated financier, I cannot tell.

But Instance and let the skadow go.

Having finished his discussion of the Anti-Rent Question, Mr. Y. proceeded to dissect the leaders of Leaderson, Mr. Y. proceeded to dissect the leaders of Leaderson, Mr. Y. proceeded to dissect the leaders of Leaderson, Mr. Y. proceeded to desert in the subject of the Scalarson of the Proceeding of the proved himself a most skilfull operator. I nove

yourself enjoy this intellectual treat.

CHANGE OF STEAMBOAT MAIL.—The Postmaster in this City writes the Postmaster of Boston as follows:

"The arrangement by which all the mails hitherto received and landed at Stonington by the N. J. Steam Navigation Co. Contractors, are hereafter to be landed and recived at Providence, is made at the direction of the Postmaster General."

Source: To-day we have had up the third reading of bills. I wish your readers could have witnessed a scene which came off on the floor of the Assembly this morning. It was the winding up of the log-rolling which I have heretofore described. The impression would have been strong, that a Legislative and a

be some rich evidence on his trial. Yours, &c.

TWENTY-NINTH CONGRESS ... First Session. Reported Specially for The New-York Tribune.

Washington, April 3, 1846-5 P. M.

The journal having been read, a Message was received from the House, announcing that the Sub-Treasury Bill had been passed by that body.

Several petitions were then presented and appropriately referred.

Several Reports of the sub-Several Reports of the sub-Sever

Several Reports of no general interest were pre-The Committee on Commerce reported a bill for

The Committee on Commerce reported a bin for the repeal of the Pilot Law of 1837.

The special order of the day was then brought up, and Mr. Ashley having yielded the floor for two days to personal explanations between Mr. Benton and Mr. Cass, addressed the Senate on Oregon—advocating the right of our country to that territory close put 54:40. clear up to 54 40.

He contended that the President and Vice President were as certainly bound to go for the whole of Oregon as a Presidential Elector is bound to go for

the Nomine of the Party.

In reply to Mr. ARCHER he proved by a table of statistics that the West were better educated than the people of the old Commonwealth. If the uneducated claimed a high latitude in Oregon, Vriginia ought to go for 75° at least.
When he had concluded Mr. McDuffie of S. C.

took the floor and will speak to morrow.

Mr. Wenster then rose and stated that the papers he had called for on the North-Eastern Boundary Treaty were in the handsof the Secretary, and he moved that they be printed for the use of the Senate. If the Senator from South Carolina should get through with his speech in time he would follow

to morrow-if not, he would address the Senate To this the will not speak in a construct the attacks of demagogues, something pretty able and eloquent may be expected from him. I will send you an abstract of his speech for your Evening Edition, somewhat fuller than I have given you of the speeches of

The Senate then adjourned till to-morrow at 12 Poor Mr. McDuffie is very feeble and will hardly

be able to stand to make a speech.

HOUSE OF REPRESENTATIVES.

Mr. BURT of S. C. made some observations in reply to a statement in the Union of to-day. He said that the communication of the Secretary of War to the Military Committee had passages in it that

ought not to be made public.

The House then went into Committee of the Whole, Mr. Foor of Vt. in the Chair, and took up the Cumberland Road bill. The bill proposes to appropriate for the Road in Ohio \$100,000; for Indiana Mr. WICK proposed that lands instead of money

should be granted.

Mr. Smith of Illinois was in favor of this amend-

Mr. STANTON proposed to appropriate 280,000 cres of land to complete a Military Road through Arkansas.

The bill was still under consideration when the House adjourned.

From the St. Louis Republican, 26th ult. Late Arrival from Santa Fe.

The steamboat Tobacco Plant, from the Missouri river, arrived yesterday. She had on board several Mexicans and Americans, traders, from Santa F6. We

Saturday last.

The company, consisting of A. Armijo, James Flores
Mr. Elliott and Mr. Lussard, arrived at Independence is
the early part of last week, after a tedious and toilsom
journey. The last two hundred miles they had to trave journey. The last two hundred miles they had to travel on foot, having been robbed of their horses on the pisins, by the Pawnee Indians, and left to get in as they could. Nearly all their mules were taken from them. They were by the Pawase indians, and lett to get in as the Count.

Nearly all their mules were taken from them. They were
left exposed to the cold of the bleak prairies, and suffered
exceedingly from this cause.

The company—Mr. N. Colburn writes from Cow Creek
—left Santa Fé on the 16th uit. On that day the Eutaw
Indiana killed fire Mexicans and wounded one, at the

lightans killed five Mexicans and wounded one, at the Wagon Meund, on the Santa F6 road. Messrs. Armijo and company reached that point on the same day, but as several of them could speak English very well, the Indians supposed them to be Americans and left them unmolested.

On the night of the 7th of March, the Indians stole seventeen mules from Mr. Colburn, and twenty-seven mules and two horses from the other members of the company, while they were encamped on Cow Creek. Some of them were left destitute of animals, and Mr. Colburn was compelled to take charge of their baggage and money. Fortunately his supply of provisions was abundant, and there was no suffering from this cause. Mr. C. was detained on this account, but he arrived at Independence in time to take his passage in the Tobactor Plant.

Independence in time to take his passage in the Tobacco Plant.

Mr. Flores, of Santa F6, took sick on the route, but recovered. One of his servants died on the way.

Messrs. E. & F. J. Lettensdorfer left Santa F6 on the
10th for Missouri, intending to take the route by Bent's
Fort. They met some obstruction from Indians, and at
one time commenced a retreat, losing a part of their
provisions, but afterward falling on the trail of Colburn's
company, they again turned to the States, and were
seven or eight days travel behind the company which
has now arrived. They had three wagons and about one
hundred mules. The family of Dr. Leitensdorfer was
with him in one wagon; in another he had corn, and a
third his money.

hundred mules. The family of Dr. Leitensdorfer was with him in one wagon; in another he had corn, and a third his money.

The political news is not of great interest. All was quiet at Santa F6. They had just heard of the revolution in Mexico, and the froops at Santa F6 were ordered below immediately.

Companies of traders were looked for from Chihuahua, on their way to St. Louis.

Messrs. ARMIJO & Co. bring with them 350 pounds of gold, in dust, and expect to return with heavy stocks of goods this Spring.

The gold mines of New Mexico had been worked with unusual success during the year, increasing, of course, the demand of the country for goods.

We learn that this trade will be very considerably increased during the present year—to the advantage, we hope, of those engaged in it. A million of dollars will probably be invested in it. Large orders have already been given for wagons, harness, &c. at Independence, and still larger orders will have to be filled at Pittsburgh. Our mechanics, it seems, are not so careful of their interests as they might be, in not turning their attention to this branch of business. The trade of Santa F6 will this year require several hundred wagons, the whole of which might be as readily and as cheapity made here as at any other point. The harness also constitutes a very important item, which might be furnished by our manufacturers. We hope to see their attention directed to this branch of business.

### Beneral Notices.

CERETAL NOTICES.

1846.—New York Whotesals Hovess —We call its attention of our readers to the advertisement of New York Whotesale Houses, in another column. Merchants and others will find it a useful species of directory.

This advertisement is published through the medium of V. B. Palmer's "Subscription and Advertising Agency," a most useful and meritorious establishment. Mr. Palmer has, by dit of great energy and indefatigable indus ry, succeedes in organizing this agency and secomplishing by means of it objects that were deemed alloquener chimerical when it was first commenced. His success has raised up a number of initiators, who now advertise Newspaper Agencies in the Eastern cities. Mr. Paimer is no way connected with any of these Having the most unlimited confidence in his capacity and integrity, he is fully authorized to make all necessary contracts as a zerot of this paper. We wish it to be distinctly understood that we have no other agent in any of the cities of New York. Philadelphia or Baltimore, and that all inquiries relative to such contracts coming from these cities, even aithough directed to ourselves, will be referred to his Ageacy.

#### Schools. DUTCHESS AGRICULTURAL INSTITUTE

DUTCHESS AGRICULTURAL INSTITUTE.
THE summer are ston of this institution commences the
inst week in April, under direction of the subscriber,
stich Wilkiason Premium Farm, in the Western Valley of
Union Vale, 12 miles East of Poughkeepsie.
The course of suddee in this Institution is such as to
give the suident every facility for acquiring a most thorough
knowledge of scientific and practical surfaciliture, with the
use of the best modern improved implements. Instruction
in physics, with lectures on those natural sciences requisite
to constitute a perfect agricultural education, will be under
the care of teachers amply quainfied, and of vied experience.
A select Farmers' Library with numerous agricultural papers and periodicais is also provided for the general beneit. The layor performed by the students is under the immediate supervision of the principal, who superintends all
farm operations.

mediate supervision of the principal, who supermeases farm operations.

A course of Lectures will be delivered on each of the Domestic Animals, commencing with the Horse, during which a perfect selection will be at hand.

The farm contains 220 acres of land, embracing a great variety of soil. The location is pleasant and healthful. The buildings are extensive and commoditions for such an institution, the homes 16 by 30 feet.

A conveyance runs regularly to and from Poughkeepsie, on Wednesdays and Saurdays, for the mail and passengers, of the manual convenience of the institution.

Students at tend Church at such places as their parents or guardians may direct.

Students received Juring the whole season of farm work, the year recknoning in each case from the day of arrival. No student received for less than one year. Fee for the year Stot, which includes Tuition, Board, with bed and bedding, washing and ordinary mending, fuel and lights.

This Institution is under the patronage of the American Agricultural Association, the Farmers Club of the American Institute, and the Agricultural Society of Dutchess.

For farther particulars address the Frincinal and Director of Farm operations, Poughteepise Post Office, Dutchess County, N. Y. Dated 1946. JOHN WILKINSON.

EPISOPAL COLLEGIATE INSTITUTE,

STAPLETON, STATEN ISLAND.

REV. THOMAS TOWELL, A. M. Principal.—The Sumnor aession of this Institution will commence on the
lirat of May next. The attention of guardians is particularly request to this Institution, as superior to most that
desire their patronaer. The course of instruction is thorough interpretations. The course of instruction is thorough into institution in the sum of the principal to institution the bosoms of his youthful charge
the true and ennobling principles of Christianity. That
thus, whilst they are preparing for spheres of usefulness on
earth, they may also be fitted for the higher duties of eternity. Knowing the peculiar trials endured by boys at most
boarding schools, Mr. T's intention is to make them feel as
members of his family, and not merely as boarders in a
achool. The proximity of the Institute to New-York, and
its accessibleness at all times from that city, united to the
beauty and healtiffulness of its situation, all combine to recommend it to the situation of parents and guardians. References may be made to the following clergymen and gentiemes—Rev. G. Winslow, S. I.; Rev. K. Goddard, S. I.;

Datent Medicines. CHRISTIE'S GALVANIC RINGS

CHRISTIE'S GALVANIC RINGS

AND MAGNETIC FLUID.—This remarkable discovery A comprises an entrely safe and novel application of the mysterious power of Galvanian, as a remedial agent. The Galvanic Rings, in connection with the Magnetic Fluid, have been used with entire success in all cases of Rheumatism, acute or chronic applying to the besal, face or limba; Gout, Tie Doloreux, Toothache, Bronchitt, Vertigo, Nervous or Sick Headache, Indigestion, Parsiysis, Paley, Epitepsy, Fits, Gramp, Palpitation of the Heart, Apoplexy, Stiffness of Joints, Spiral Complaints, Lumbago, Neuralgia, Nervous Tremors, Diratisess of the Head, Pains in the Chest and Side. General Debility, Deficiency of Nervous and Physical Energy, and all Nervous Disorders. In cases of Dyspepsia, which is simply a nervous derangement of the digrative organs, they have been found equally successful. The Rings are of different prices, being made of all sizes, and of various orgamental patterns, and can be worn by the most dedicate female without the slightest inconvenience.

The Galvanic Bellis, Bands, Sackellers, &c. are modifications of the invention, and are recognemeded in more chronic cases of disease, where the Rings do not possess sufficient intensity or power. They are adapted to the waist, arms, wrists, ankles, chest, or any part of the body with perfect ease. Any Galvanic power that is required may this be obtained, and no complaint which the mysterious agent of Galvanism can affect, will fall to be permanently relieved. Christie's MacNetic Fluin is used in connection with the Rings and their modifications. This composition has been procounced by the French Chemists to be one of the most aduable discoveries of modern science. It's believed to possess the remarkable power of rendering the nerves sensitive to Galvanic action, by this mean causing a concentration of the influence at the sea of disease, and thus giving rapid and permanent relief.

CRESTRE'S GALVANIC AND STRENGTHENING PLASTERS.—

giving rapid and permanent relief.

These articles form an important addition to the Galvanic Rings, acting upon the same principle, but having the advantage of more local application. As an effectual means for attengthening the system when debilitated by disease or other causes; as a certain sid in constitutional weakness; as a preventive for colds, and in all affections of the chess generally, the Galvanic Strengthening Plasters will be found of great and permanent advantage.

Home Certificats.—These testimonials, all of which are from the most respectable sources, have been selected from several hundred of a similar character, which have been procured during the short time the discovery has been before the American public.

NERVOUS HEADACHE AND RHEUMATISM.—Mr. Jacob A Ogsbury, No. 162 William-st. New-York, has been afflicted from childhood with almost constant Nervous Heas fache and Rheumatic pains in the legs and arms. He was also troubled with great nervous debility and indigestion. Mr. Ogsbury tried the Galvanic Rings and Maguetic Fluid, and states that "after a few hours the application appeared to strengthen my nerves, entirely relieved my headache, and I have had no relapse of the Rheumatism since the first day.

TIC DOLOREUM.—The following testimonials is from Timothy C. Dwight Esq. who is so favorably known from his exections in the cause of Education throughout the Northern States:

Dr. A. H. Greitste—Dear Sir; For several years I have

thy C. Duight. Esq. who is so favorably known from his exertions in the cause of Education throughout the Northern States.

Dr. A. H. Christie—Dear Sir.: For several years I have been terribly afflicted with that agonizing complaint called Tic Doloreux, principally affecting the sciatic nerves. At times, no human being can have suffered more; my acreams have often disturbed the neighborhood. By simply wearing one of your Rings on each of my hands, and faithfully using the Magnetic Fluid, the complaint has entirely left me, and I now believe myself completely cured.

I am very respectfully ours.

Albany, Dec. 4, 1845. TIMOTHY C. DWIGHT.

Mrs. Mary Bonycastle, widow of the late Prof. Bonycastle, President of the Virginia University, residing at Mrs. Shenard's, Pennsylvania-avenue, Washington, D. C. has also been bermanently relieved of severe Tic Doloreux affecting the face.

Convuctions and Firts—Dr. A. Christie—Dear Sir.: 1 feel it a duty to state, for the henefit of the public, that your Galvanic Remedies, as apoled by the Rings and Magnetic Fluid, have entirely cared my son, now eleven years old, of the most severe and alarming Flus, to which he has been subject for the last six years. He has often had from 12 to 16 fits in one day, sometimes accompanied with the most dreadful screeching, at the same time a choking in the throat, and pain in the region of the heart. His mother and myself-have long despaired of his life, but through the means of Frovidence and your remedies, he is now quite well, and I sincerely believe his cure will be permanent well and I sincerely believe his cure will be permanent to the Methodist Episcopal Church, reading at US Division-st. New-York, has been subject to Flus alnoe bern supposed to be dead. The use of the Galvanic Braceletes and Fluid has caused their complete disappearance. The system being much weakened by the frequent mended, which was used with the happiest results.

Sick Headacae.—The following certificate is from the lady of Capt. John F. Strain, one of the most resp

SANDS'S SARSAPARILLA, FOR THE REMOVAL AND PERMANENT CURE OF ALL DISEASES ARISING FROM AN IMPURE STATE OF THE BLOOD OR HARITS OF THE SYSTEM, VIZ:

New-York, Nov. 15, 1845.

New-York, Nov. 15, 1845.

A child of the Rev. S. R. Rowarth, the well known Minister of the Methodist Episcopal Church, residing at 105 Division-st. New-York, has been subject to Fits since birth. He has generally been attacked in the night, and has several times been apposed to be dead. The use of the Galvanic Bracelets and Fluid has caused their complete disappearance. The system being much weakened by the frequent attacks, the Galvanic Strengthening Plaster was recommended, which was used with the happiest results.

Sick Headache.—The following certificate is from the lady of Capt. John F. Strain, one of the most respectable littleness of Albany, N. Y. Reference can be given to many others, mostly ladies, who seem peculiarly affected with this greats past with the Sick Headache, which distressing complaint has confined me to the bed from one to two days the whole system. It is approved and highly recommended by Physicians, and Is admitted to be the most powerful and searching preparation from the root that has ever be memployed in medical practice. It is not local in its operation, but general, extending through the whole system. It neutralizes the potential system and other painful affections of the week during that time. For non-month peast I have worn Dr. Christie's Galvanic Rings, and cocanonally using the Magnetic Finid. I am happy to say that I have not been troubled with the sick headache since.

Albany, Dec. 2, 1835. ANN F. STRAIN, 67 Dewitt-st. Mrs. J. Trenor, wife of the celebrated Dendat, No. 4 College-place, N. Y. sent for the Rings and Fluid during the continuance of a severe stack of the Sick Headache, to which she has long been subject. In five minutes after applying the Firld, the pain entirely left, and since then there has been no rature of the complaint.

For Bewne of spurious Smitations of the shove articles. The only place in New-York to obtain the canoning Rings and copression of the content of the con

was awoilen to nearly twice its natural size, the nearly imba and body were almost entirely covered with large series. She was unable to move, and would take no notice of snything, only to shrink from being touched even by her mother. The disease, at the same time, was equally severe inwardly, attended with bloody evacuations every few hours. They procured some more of the Sarsaparilla, and before she had taken one bottle she could slip down from the chair and creep across the room. She has now just finished taking the second notile, and the sores are nearly all healed, the limbs are restored to their natural use, she is quite cheerful, and is fast improving in healin.

Your very respectfully,

Sec of Youth's State Tem Soc.

The following is an extract from a letter received from Mrs Bevan, who had been afflicted for several years with Scrofilous Ulcers, Dyspepsia, ac. and recently with an affection of the Throat and Chest:

Messra, A. B. & D. Sanus—Before I commenced using your Sarsaparilla my sufferings were almost past expression, my throat was completely ulcerated, I had a dreadful cough, and there were frequently weeks together that I could not speas above a whisper: and, beatles, the inframental from my throat extended to my bead, so that my hearing was very much impaired. After taking the Sarsaparilla a short time my beath improved and my throat is now well, I san as free from cough and flightness of the chest as sver I was, and can bear quite distinctly. My throat has been well about three motths, the cure of which has been effected entirely by the use of your Sarsaparilla. Your friend.

For farther particulars and coocclusive evidence of its superior value and efficacy, see pamphlets, which may be obtained of Agents graits.
